- Wordpress Websites, Using Bricks, WPBakery, Elementor, Divi, etc.
- Shopify, Liquid Templating Script, Shopify Custom Sections & Shopify Apps
- Server Management, specifically Linux (Debian) & Docker

NOTABLE EXPERIENCE

Colored Byte - *Shopify Consultant | Web Designer*

April 2021 - Present

● Serve as a Shopify App Consultant, in both the installation, setup, and maintenance of various apps that already exist, so we don't have to custom build everything. Sometimes helps with custom building things.

Blue Crab Web - *Web Designer/Developer*

April 2018 - Present

● Web Designer working with Wordpress, Shopify, and Microsoft D365 Ecommerce to build clients websites to match their needs. Comes with HTML5, CSS, JS, Photoshop, and other expected skills.

MXT.co - *Project Manager*

April 2024 - April 2025

● Coordinated two separate dev teams to build a single, functional ecommerce store using Shopify & custom development. Held and conducted weekly meetings, kept teams on task, with deadlines, checking, and status updates. Included writing weekly reports for company owner on project status.

Bible Teacher

Sept. 2013 - Present

● 10-15 hours/week of volunteer teaching to those interested. Usually in a one on one, in-person setting, but occasionally to groups. Involved following both a preset curriculum, but also tailoring the information to whatever questions, concerns, or needs the student has.
